

Remember... ...when your lawn looked this good?

- Is your lawn feeling the effects of the drought?
- Wish you could have green lawn again - overnight?
- Don't want to spend \$1,000s on synthetic turf?
- Need that extra "bling" when presenting your home on the market?

**reborn
lawns**

giving you back
the green.

It can again with Reborn Lawns!

reborn lawns

giving you back
the green.

- Your lawn will instantly look lush and green again
- Dead, brittle lawn will not only look beautiful again, but feel softer
- Our product is an environmentally friendly and non-toxic
- It is completely safe for you and your family – including your pets – even if they chew it!
- We only use recycled water during the application
- Don't spend \$1,000s on synthetic turf! Lawn treatment by Reborn Lawns is cost effective and very affordable
- It won't wear off – or wash off – after application and you can walk on it almost immediately!
- The results will last for around 4 months or until mowing removes the colored grass
- We can even blend the colour to suit if your lawn still has some green areas

We are suffering through one of our worst droughts on record. Things have never looked so bad. All we hear is bad news and it's so depressing looking at the dead and dying gardens everywhere.

Reborn Lawns is the first company in Victoria to provide this unique service. Our special formula of lawn pigment looks so good, that you will forget that your lawn is actually dead!

It is a cheap and easy alternative to the ongoing stress of wondering when you can water your lawn again.

All you need to do is tidy and mow the lawn the way you would like it to look – we do the rest! And our work is guaranteed for 2 months.
